

GLOBAL INITIATIVES SYMPOSIUM

Venue

National Taiwan University

Conference Date

Jul. 1st - 5th, 2024

REBUILD AND REVIVE

Global Initiatives Symposium (GIS Taiwan) is the largest student-associated international academic forum in Taiwan. As an annual five-day conference, GIS provides a global platform that brings together global scholars, business leaders, and student delegates from diverse fields. We hope to inspire cross-disciplinary and cross-generational discussions, alongside in-depth analysis and idea exchange on various topics.

History & Internationality

We gather students from all over the world, expecting that diverse viewpoints and backgrounds could add flair to the symposium. Over the past 14 years, GIS has welcomed participants from over 50 different countries, spreading across 6 continents.

Cross-Field, Cross-Country & Transboundary

We create a platform of possibilities and invite prominent speakers from different fields or industries. For example, last year, we invited the General Manager of BNP Paribas Taiwan, Ms. Manon Breuvert, and the Academician of Academia Sinica, Dr. Yang, Pan-Chyr. We believe our speakers will inspire all participants and spark various new ideas.

From Problem to Solution

Through exchanging thoughts and being guided by mentors, participants will work in groups to devise Impact Projects based on the academic topic they choose and design feasible solutions to the problems.
